Independent Auditors' Report

To the Board of Directors
Be An Angel Fund, Inc.
Houston, Texas

We have audited the accompanying statements of financial position of Be An Angel Fund, Inc. (a non-profit organization, "Organization") as of August 31, 2011 and 2012, and the related statements of activities, functional expenses and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted the audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Be An Angel Fund, Inc. as of August 31, 2011 and 2012, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

- Missionary Angels carry the good news about the Organization into the community by seeking volunteers and donations at shopping malls and local events.
- Entertainment Angels make children smile through the offering of their talents, including art, music and clowning.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financials are presented using the accrual basis of accounting, in accordance with generally accepted accounting principles. Revenues are recorded when earned, and expenses are recorded when incurred.

Financial Statement Presentation

The Organization presents its financial statements in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958 – *Not For Profit Entities* (“ASC 958”) (formerly Statement of Financial Accounting Standards (SFAS) No. 117, *Financial Statements of Not-for-Profit Organizations*). Under ASC 958, the Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Net assets represent the difference between assets and liabilities. Additionally the Organization is required to present a statement of cash flows.

Unrestricted – Net assets that are not subject to donor-imposed restrictions. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor.

Temporarily Restricted – Net assets whose use is subject to donor-imposed restrictions that can be fulfilled by actions of the Organization pursuant to those restrictions or that expire by the passage of time. All donor-restricted support is reported as an increase in temporarily restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction lapses or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently Restricted – Net assets subject to donor-imposed restrictions that are maintained permanently by the Organization. The Organization does not have any permanently restricted net assets as of August 31, 2012.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates relate primarily to lives used in asset depreciation, fair values used to record in-kind contributions, and the functional allocation of expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Organization considers all highly liquid investments with initial maturities of three months or less to be cash equivalents.

Concentration of Credit Risk

The Organization maintains its cash in bank deposit accounts, which at times may exceed federally insured limit (“FDIC”), which is \$250,000 for 2012. Section 343 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“DFA”) provides temporary (through December 31, 2012) and unlimited deposit insurance coverage for non-interest-bearing transaction accounts at all FDIC-insured depository institutions. Except for the Certificate of Deposit, all bank accounts are non-interest-bearing, so the FDIC insurance limit does not apply. The Organization has not experienced any losses in such accounts and management believes it is not exposed to any significant credit risk on cash.

Contributions

The Organization accounts for contributions in accordance with recommendations of ASC 958, (formerly SFAS No. 116, *Accounting for Contributions Received and Contributions Made*). In accordance with ASC 958, contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support depending on the existence and/or nature of any donor restrictions.

Support that is restricted by the donor is reported as an increase in temporarily restricted or permanently restricted net assets in the reporting period in which the support is recognized. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Functional Expenses

As required by ASC 958, the Organization presents its expenses according to their functional classification on the statement of activities. Functional expenses presented include program services, which encompass expenses related to the fulfillment of the purpose, and mission for which the Organization exists, and supporting services and administration, which include all activities not considered program services. General management and fundraising activities are considered supporting services.

The statement of functional expenses, also required by ASC 958, presents the Organization's expenses in further detail, displaying expenses according to both functional classification and account.

Fixed Assets

Provisions for depreciation on all fixed assets are determined over the estimated useful lives of the respective assets on a straight-line basis. Fixed assets are recorded at cost when purchased. Donated assets are recorded at fair market value on the date acquired. Assets with a life of over one year and a cost of over \$500 are capitalized and depreciated.

Donated Material and Services
